

Premium Modules  
MADE IN GERMANY

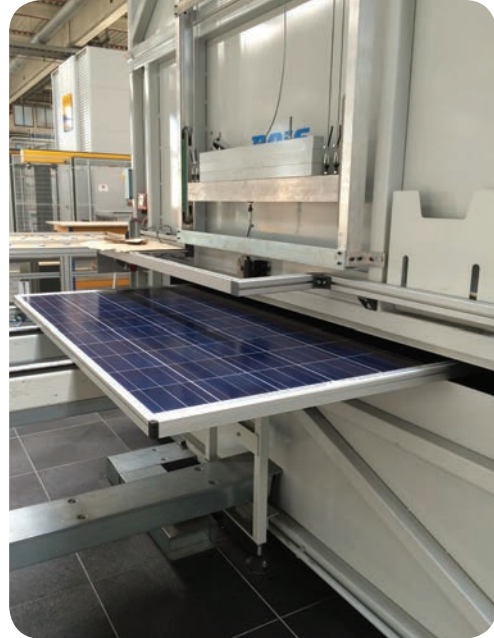

company brochure

# Premium quality of the Solar Fabrik

Solar Fabrik produces premium modules „Made in Germany“ at the production site in Freiburg.

Solar Fabrik is one of the most experienced solar companies in Europe. Solar Fabrik looks back on 20 years of experience in production of photovoltaic modules. Sustainability is a fixed component of the business culture. The focus of the daily work is the quest for premium solar solutions with long-lasting high yields. In the production of the modules we put great emphasis on quality.

Solar Fabrik: Premium quality  
„Made in Germany“.

## Social responsibility

„Everything we do, we do it by total conviction and for a greener future.“ Christian Laibacher, CEO and owner

Solar Fabrik, Freiburg: One of the most modern,  
fully automated module production lines

## Products

Products of Solar Fabrik stand for long-time experience, new impulse and innovative developments. They guarantee a high profitability and an optimum of revenues. By careful selection of the components, long-term tests and constant quality assurance Solar Fabrik ensures the exceptional quality of their premium modules. Thereby they offer their customers a product warranty of 20 years.

One of the most modern, fully automated module production lines throughout Europe ensures the continuation of the module production in Germany.

## Quality

Highest revenues through premium quality. Careful controls along the entire production process guarantee a consistently premium quality and extremely durable modules.

Satisfied customers and steady advancement of our products have highest priority for us. Our high-quality components, coming mostly from Europe, ensure the high quality.
