Creating a Powerful Future

Who we are

+ Solar Fabrik GmbH is a **leading German manufacturer of high-quality solar modules** based in Laufach, Bavaria
+ Founded in 1996, the company has been **family-run** since its takeover by Christian Laibacher in 2016 and stands for a combination of **many years of experience, innovative technology, and German quality workmanship**

What we do

+ Solar Fabrik develops and produces reliable, safe, and aesthetically pleasing photovoltaic solutions
+ The company's aim is to work with strong partners to make solar energy accessible to everyone. Under the guiding principle **'Creating a Powerful Future'**, Solar Fabrik develops and markets solar modules for a range of applications – from private homes to commercial and larger photovoltaic systems

Christian Laibacher (CEO), sister: Janina Sternheimer-Laibacher (CFO), mother: Martina Laibacher (Head of Accounting) and Lukas Staab (COO)

30
years of experience
Expertise through many years of industry knowledge.

> 1 GW/year
Annual delivery volume

75
employees

0.01%
Complaint rate
Outstanding reliability and customer satisfaction.

We are investing in Germany

+ **Factory One** in Hösbach, Bavaria: Production hall constructed, infrastructure set up and all machine components on site
+ January 2026: Opening of **Factory One Future Campus** training and conference center with a view of the production line under construction
